The recent rains have greatly benefited the soil. Every drop of rain that fell went into the ground and did much good. The fall wheat will now take a good start and we will go into the winter with the subsoil well moistened. Every prophet in the country is predicting a bumper crop for next year and all the signs are favorable.

By actual count there were forty-seven people who told us that as soon as the rain stopped our streets should be treated to a vigorous use of the King road drag. The usefulness of this simple instrument has been demonstrated time and time again and it is no longer an experiment. If the general opinion is that this drag should be used it ought to influence the city fathers to make a thorough trial of it. There have been expended a good many dollars on the streets this year, and we believe to good advantage, but unless taken care of after rains this money will all be spent for nothing. As soon as travel cuts furrows in the center of the street the rains will wash away all the dirt and then we will be in the same condition as before. Let us give the King road drag an opportunity to show what it can do.

The Webster county fair at Bladen this year was an exceptional success notwithstanding the fact that they were disappointed in securing their flying machine. The exhibition of live stock was first-class. All of the animals were magnificent specimens and there were plenty of them. The agricultural display probably will not be excelled in any county in the state this year. Melons, corn, wheat, oats and garden truck in profusion. Next year the management will have to provide more room for this display as the present quarters were too small to properly show the products. The races this year were perhaps the best ever held in the county. Friday the fastest time ever made on the Bladen track either trotting or pacing was recorded, time 2:13. The wrestling match was good. In fact every part of the program was of a high order. Last but not least the human side of the fair was a complete success. Here old time friends met again and renewed their acquaintance, neighbors visited, exchanged experiences, discussed current topics and enjoyed themselves completely. The thirty second annual Webster county fair was well attended and a good one.

The people of this district have shown a strong disinclination to change their judges unless for good cause. Judge Gaslin although never popular, as we are informed, was elected term after term because the lawyers and clients were doubtful as to whether a new man would be better. Judge Beall and Judge Adams were both elected two terms. We have talked with attorneys and others who knew all these judges and they have all agreed that Judge Dungan has made as good a judge as any of his predecessors. He is painstaking, sympathetic, looks up the law carefully and is honest and fearless in his decisions. Each year on the bench has made him

a more thorough lawyer, more ready to seize the important questions of a controversy, more able to decide them rightly. He is a growing man. Among the thirty five district judges in the state Judge Dungan stands sixth in the number of times his decisions have been affirmed by the supreme court. This is certainly a good record for a first term. It shows that the Judge has been conscientiously, studiously and discriminatingly applying the law to the facts of the cases brought before him. It has been conceded that a good official is entitled to a second term but aside from this view Judge Dungan is better fitted to render efficient service to the people of this district than ever before and he deserves the generous support of all the people.

A machine worthy of more than passing attention has just been installed by James Peterson in his all ready equipped garage. This machine is called "an oxygen acetylene welding machine." It is fitted with four or five tanks, pressure gages, rods and rubber tubing and the like but it generates a powerful heat which is confined to a space of about one half an inch. The heat generated is six hundred degrees which is sufficient to melt the hardest steel as easily as a plumber melts lead. It burns acetylene, black manganese and fluid potash. With it any kind of metal may be welded and repaired. The broken water jackets on gasoline engines may now be fixed with ease, cast iron of any description can be mended without in any way injuring the efficiency of the part. People need now no longer send away for new pieces to replace broken parts of their machinery this little machine can fix anything and do it before the express can travel one way. This shows that the inventive genius of America may well be depended upon to provide machines of any character whenever our civilization demands it. The blacksmiths of ten years ago would have said that it was impossible but the manner in which this machine repaired our large cast iron paper cutter convinces us that it can do anything in the mending line.

One Million Dollars for a Good Stomach

This Offer Should Be a Warning to Every Man and Woman

The newspapers and medical journals recently have had much to say relative to a famous millionaire's offer of a million dollars for a new stomach.

This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable.

His misfortune serves as a warning to others.

Everyone who suffers with dyspepsia for a few years will give everything he owns for a new stomach.

Dyspepsia is commonly caused by an abnormal state of the gastric juices, or by lack of tone in the walls of the stomach. The result is that the stomach loses its power to digest food.

We are now able to supply certain missing elements—to help to restore to the gastric juices their digestive power, and to aid in making the stomach strong and well.

We know that Rexall Dyspepsia Tablets are a most dependable remedy for disordered stomachs, indigestion, and dyspepsia.

We want you to try them and will return your money if you are not more than satisfied with the result.

Three sizes, 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store, The H. E. Grice Drug Co.

JEWELER AND OPTICIAN

AUTHORITATIVE Styles in Suits and Coats

We now have a most complete and attractive line of
Womens Suits and Coats.

The best in line, in quality of fabric, in style and in workmanship that eastern factories can manufacture. Smartness, modishness characterize every line! We carefully examined the Suits and Coats of the most reputable Eastern women's tailors before buying; we compared lines, fabrics, workmanship, lining—in short every detail of the garment, before buying! Needless to say, you're assured the best that money can buy!

Made of Serges, Cheviots, and Mixtures, in the most practical of fall colors. Some are plainly tailored; others show dressy little touches of braids and trimmings.

Ideal Suits and Coats in weight, color and style for Fall and Winter wear. Other departments are equally able to supply your wants.

"A Mighty Safe Place to Trade"

Special Trains To Hastings Festival.

All the Parades during the Central Nebraska fall festival have been arranged to take place after the arrival of the regular trains in the forenoon from Red Cloud, Blue Hill and intermediate points thus giving all the people from the south and west of Hastings a chance to see the entire program.

Extra Train Returning

On Tuesday October 10th and Friday October 13th there will be a special train made at Hastings leaving the Burlington station at 7:30 P. M. and making all stops south as far as Red Cloud. This train is for the accommodation of those who do not wish to return as early as the regular passenger which will depart at the usual time so as to make its connections at Blue Hill for the west.

Take Your Common Colds Seriously

Common colds, severe and frequent, lay the foundation of chronic diseased conditions of the nose and throat, and may develop into bronchitis, nose and throat, and may develop into bronchitis, pneumonia and consumption. For all coughs and colds in children and in grown persons, take Foley's Honey and Tar Compound promptly. Sold at Dr. Cook's drug store.

Resolutions.

WHEREAS, Our beloved brother, L. H. Fort, was on the 20th day of September, 1911, by the decree of an overruling providence, called from his earthly suffering to a home where pain and sorrow are unknown, and where the weary find rest,—be it therefore.

RESOLVED, That in the death of Brother Fort, the members of this lodge fully recognize that they have lost one of their number, who was at all times imbued with the pure principles of the order, and whose life and conduct suffer no reproach to be on his character, either as a Rebekah, fellow citizen or husband and father.

RESOLVED, That the sincere and heartfelt sympathies of the members of this lodge be, and are hereby extended to the bereaved widow and family of our deceased brother, whose loss we, with them, deeply mourn.

RESOLVED, That these resolutions be recorded on the memorial page of the records of the lodge, and that the secretary deliver a copy thereof, properly engrossed to the widow and family of the deceased.

In Memoriam

William P. Kenady died at a sanitarium in Boulder, Colorado Tuesday Sept. 26, 1911. The body accompanied

by his son, C. D. Kenady was brought to this city last Thursday and funeral services were held at the Baptist church, Judge I. W. Edson officiating. Mr. Kenady was born in Kinderhook, Illinois, February 2, 1842 and united in marriage with Mary Greenleaf in 1871. To this union three children were born Calvin D now a resident of Mexico, Susie M. Sellars now a resident at Exeter, California and Mrs. Ethel Wilson who has recently removed to South Dakota. The immediate cause of the death of Mr. Kenady was cancer of the stomach. Medical aid was of no avail and he deceased after month's illness. The deceased served his country as a soldier at the breaking out of the Rebellion and by his faithful service in that war earned an honorable discharge. He was a member of the local G. A. R. post and that organization attended the services in a body and performed the last rites at the cemetery.

Mr. Kenady came to Red Cloud in 1886 and during all that time was well known as a man of unquestioned integrity and absolute honesty. He never asked for political preferment and never sought for recognition in any position. He was content to live his life in quietness, was a good neighbor and a friend of all. The body was laid to rest in the city cemetery beside his wife who preceded him into the great beyond two months and six days before.

A Medicine that gives Confidence

Is Foley's Honey and Tar Compound. Mrs. T. J. Adams, 522 No. Kansas Ave., Columbus, Kas., writes: "For a number of years my children have been subject to coughs and colds. I used Foley's Honey and Tar Compound and found that it cured their coughs and colds, so I keep it in the house all the time." Refuse substitutes. Sold at Dr. Cook's drug store.

Odd Fellows at York

Members of the Odd Fellows' lodge in this city will no doubt be interested in the announcement that the dedicatory services of the new Odd Fellow's home at York have been set for Wednesday afternoon, October 18. The grand lodge session will be held in Lincoln on the 17th and 18th of October, but will adjourn Wednesday morning and come by special train to York to participate in the dedication of the new building. It is expected that there will be between four and five thousand people present if the weather is fair. In the afternoon there will be a parade of visiting Odd Fellows and Daughters of Rebekah Congressmen Norris will be the orator of the day.

The Paint that Holds to the Wood like a Nail

THE surface of seasoned wood is porous. The pores are empty sap cells. White Lead Paint not only covers the surface with a solid film but it fastens into these pores with a rivet-like grip that holds for years. The paint that lasts is made of

SOUTHERN Pure White Lead

turpentine and linseed oil, and is mixed on the premises after the painter has examined the surface to be covered. Good old-fashioned paint, made in this way, never cracks or scales off and does not have to be burned off before re-painting. It becomes part of the wood itself.

Send for Our Free Painting Helps

containing color schemes, miscellaneous painting directions and names of "Blue List" Painters in your community who use our white lead. Ask for Helps No. B.

TO PAINTERS: If you use our white lead send us your name for our Painters' "Blue List." Write us for circular No. B. It gives particulars.
